

EF™ Triage Self-Assessment

Sixteen statements across four domains — completed before your first contact so your care starts at the right level. Five to eight minutes; answer for the past two weeks.

BEFORE YOU BEGIN

How this works

Rate each statement 0–4 for how true it has been over the past two weeks: 0 = not at all · 1 = occasionally · 2 = some days · 3 = most days · 4 = nearly always. Add each domain, then the total. The bands below suggest a starting pathway — your clinician confirms the final allocation.

This is a triage and reflection guide, not a validated diagnostic instrument. It never replaces clinical judgement or medical assessment.

NAME

DATE

Domain A · Gut-Focused Anxiety

	Not at all	0	1	2	3	4
I worry about my gut symptoms occurring in public or social situations	0	1	2	3	4	
I feel anxious when I notice sensations in my stomach or bowel	0	1	2	3	4	
I avoid places where bathroom access is uncertain	0	1	2	3	4	
I fear losing control of my symptoms	0	1	2	3	4	
My confidence has reduced because of my gut	0	1	2	3	4	

DOMAIN TOTAL (/20)

Domain B · Emotion Sensitivity

	Not at all	0	1	2	3	4
I feel emotions intensely, and they take a long time to settle	0	1	2	3	4	
When I am emotional, I feel it in my gut (tension, churning, nausea)	0	1	2	3	4	
Stressful days reliably make my symptoms worse	0	1	2	3	4	
My emotions affect my digestion, energy, or sleep	0	1	2	3	4	

DOMAIN TOTAL (/16)

Domain C · Health Anxiety

Not at all 0 1 2 3 4

I worry that my symptoms mean something serious has been missed

0	1	2	3	4
☐	☐	☐	☐	☐

I search my symptoms online or seek reassurance about them

0	1	2	3	4
☐	☐	☐	☐	☐

Reassurance from doctors helps only briefly, then the worry returns

0	1	2	3	4
☐	☐	☐	☐	☐

Worry about my health interferes with my daily life

0	1	2	3	4
☐	☐	☐	☐	☐

DOMAIN TOTAL (/16)

Domain D • Functional Impact

I feel less in control of my daily life because of my gut

Not at all	0	1	2	3	4
	☐	☐	☐	☐	☐

My symptoms affect how much I socialise or engage with others

0	1	2	3	4
☐	☐	☐	☐	☐

I have given up activities that matter to me because of symptoms

0	1	2	3	4
☐	☐	☐	☐	☐

DOMAIN TOTAL (/12)

SCORING

Your total and what it suggests

TOTAL SCORE (A + B + C + D, maximum 64)

BAND	SCORE	SUGGESTED STARTING PATHWAY
Green — Education	0–22	Free Module 1 + resource hub; self-paced eLearning.
Amber — Foundations	23–35	4-week Foundations psychoeducation group + workbook.
Orange — Skills Programme	36–48	Structured group programme — most referrals sit here.
Red — Individual	49–64	Individual assessment and tailored treatment plan first.

Red-flag check — tick any that apply

Any tick routes you to individual assessment regardless of score.

- | | |
|--|---|
| ☐ Thoughts of self-harm or suicide | ☐ Significant unintended weight loss |
| ☐ Blood in stool / black stools | ☐ Symptoms waking me from sleep |
| ☐ Severe restriction of food intake | ☐ New symptoms after age 50 |

IMPORTANT

Red-flag symptoms need medical review first — contact your GP or specialist. If you are in crisis or having thoughts of suicide, call 111 or your local crisis line now; EF™ Health does not provide crisis care.
